sublime DESIGNS MEDIA x VIZHIN a better way forward

GTM ASSESSMENT

Multiply your GTM results.

When sales and marketing pull in different directions, growth gets expensive. Leads stall, messages conflict, and your CRM becomes a place where pipeline goes to hide. The bottom line: your team isn't performing. The fix isn't more headcount or another tool—it's alignment and getting the right people in the right seats, with the right expectations.

Sublime and Vizhin have joined forces to offer a **GTM assessment** that looks across your entire revenue engine—sales and marketing together—to find exactly where momentum is leaking and what to do about it. Together, we bring **decades of experience on both sides of the funnel**, so nothing gets lost in the gap between teams.

You'll walk away with a clear-eyed read on what's working, what isn't, and a prioritized plan to fix it. No fluff. No 80-page reports nobody opens. Just answers you can act on.

One revenue engine. Not two departments.

Sales + Marketing

One assessment across your full GTM motion—not another siloed audit

Decades of combined experience building, fixing, and scaling B2B GTM teams

We're the partners who tell you what you need to hear—not just what you want to hear.

Alignment that helps you win.

Most GTM problems aren't sales problems or marketing problems—they're handoff problems. We assess the whole system, so the fixes stick.

We start with your funnel first.

Before recommending anything, we dig into how your buyers actually move—from first touch to closed-down—and where they're falling out along the way.

Findings you can act on.

Every assessment ends with a prioritized roadmap: what to fix now, what to fix next, and what's fine to leave alone. Clarity, not homework.

Is this for you?

Series B and later
You've found product-market fit—now GTM efficiency is the growth lever

B2B tech companies
We know your buyers, your funnel, and your stack inside and out

$10M+ in revenue
Enough GTM motion to assess—and meaningful upside to unlock

What we assess

We look across sales and marketing to find where your GTM engine is humming—and where it's losing power.

CRM & PIPELINE SETUP
Is your CRM working for you—or are you working for it? Are you using automation and AI effectively? We audit your setup, stages, hygiene, and adoption so your pipeline reflects reality.

MESSAGING & POSITIONING
Does sales say what marketing promises? We test your message for consistency and impact at every touchpoint, from ads to outbound to demos.

LEAD FLOW & HANDOFFS
We trace how leads move from marketing to sales—routing, response time, follow-up—and find where good leads quietly die.

METRICS & REPORTING
Are sales and marketing measuring the same funnel? We assess your KPIs, attribution, and dashboards so both teams work from one truth.

TECH STACK & TOOLS
We map your GTM stack against how your team actually works—flagging overlap, gaps, and tools you're paying for but not using.

SALES CONTENT & ENABLEMENT
Do your reps have what they need to sell—decks, one pagers, battlecards—and is any of it actually getting used?

The GTM Audit

GTM scorecard — an honest grade across every area we assess, benchmarked against what good looks like at your stage.

How it works

1 DISCOVER
Interviews with sales, marketing, and leadership, plus access to your CRM, content, and reporting.

2 ANALYZE
We dig into your funnel, message, data, and stack—looking at the whole engine, not the parts in isolation.

3 READOUT
Scorecard and findings, delivered in a working session built for decisions—not a deck dump.

4 ACT
A prioritized roadmap your team can run with—or we can help you execute, from messaging to CRM cleanup.

Average timeline: 3–4 weeks
